SEVENTY-SECOND YEAR

COMANCHE, COMANCHE COUNTY, TEXAS.

THE COMANCHE CHIEF AUGUST 25, 1944

PARTY CHAIRMAN ASKS FULL VOTE

Eanes Elected President of Old Settlers Reunion; Big Crowd At Successful One Day Session Here

The Comanche County Old Settlers held a successful one day and night session of the Comanche County Old Settlers Reunion at Lake Eanes Friday and already are making plans for a bigger and better reunion next year with the belief that the war will be over by that time. J. R. Eanes, long active in the affairs of the county, was elected president of the Reunion Association, and Walter Fritts, vice-president. Mrs. E. G. Wells was re-elected secretary and D. E. Nabers, treasurer. All members of the executive committee were re-elected.

A fair crowd was in attendance Friday morning, a good crowd in the afternoon, and if there was any one in the county absent at the night program, he or she could hardly be missed from the huge throng that covered almost the entire grounds at Lake Eanes Park. A loud speaker, however, enabled all to hear the program which consisted entirely of singing.

The morning session was informal and given over to talks by old timers and included such numbers as a maiden speech by Mrs. W. B. Cunningham and music by George L. Morris on a unique instrument which he described as the first used after the creation of the world. Talks were made by many others including Jim Eanes, A. B. Dabney, Bob Luke, Mayor Bertram of Gustine, and others. The main address was made by Oscar Callaway and has been described by many who heard it as the best speech they ever heard the former congressman make. For the benefit of those who did not hear it, it will be carried later in The Chief.

The afternoon program was given over mostly to political speeches with the two candidates for County Judge, H. H. Lockridge and Harris Lane, leading off. Both made excellent talks. J. R. Eanes then introduced Robert Holloway who spoke in behalf of Attorney General Grover C. Sellers. The two congressional candidates, Sam Russell and Clyde Garrett, used the remainder of the time.

Singing Draws Praise

The night program was given over exclusively to singing, being under the direction of the Comanche County Quartet Singing Convention with Charlie Nance directing. There were more than two score other leaders present to assist Mr. Nance and numerous quartets. The singing was said to have been one of the best of its kind ever held in the county and held the attention of the big crowd, most of whom were standing, for nearly three hours.

Carl Schwartz Dies At Priddy

(By Rev. A. H. Muehlbrad)

Carl Schwartz, resident of Priddy for the last 36 years, died at the family home on Saturday afternoon, August 12th at 3:00 o'clock. Mr. Schwartz was a native of Germany. When a youth of 18 years he came to America, settling in Washington County, Texas. It was here in the year 1886 that he was united in holy wedlock with Miss Sophia Tockhorn, who died in January, 1942.

In 1904 the family moved to Hamilton County, making their home near Pottsboro. Four years later they moved to Priddy, where they lived ever since.

Mr. Schwartz reached an age of 80 years, 6 months and 2 days. He became a member of the Lutheran Church in his infancy, and was a member of Zion's Lutheran Church of Priddy at the time of his death. At several different intervals in his life he served his church as deacon.

Those who mourn his demise are: Five daughters: Mrs. Annie Tiemann of Austin, Mrs. Bettie Albright of Hamilton, Mrs. Emma Jeske of Star, Mrs. Lydia Kunkel and Mrs. Ida Dearson of Priddy. Two sons: Fritz Schwartz of Priddy and Charlie Schwartz of Austin. Thirty grandchildren and 5 great-grandchildren.

Funeral services were conducted Sunday afternoon in the Zion's Lutheran Church with A. H. Muehlbrad, pastor of the church in charge.

Sgt. Paul Little Dies From Wounds Received Recently

Sgt. Warren Paul Little, 26, who was reported wounded in action in France on July 26, died July 27 according to a message received by his wife from the War Department. No details of his injuries have been received.

Sgt. Little, who had been in France since D-Day on June 6, was with a reconnaissance squadron of the mechanized cavalry. He had been in the service for about eighteen months, and had been overseas since last November.

SGT. LITTLE

Little, a 1935 graduate of Comanche High School, attended North Texas State Teachers College at Denton, and was connected with the bank at Texas State College for Women at Denton, when he was inducted into the Army in February, 1943.

It was while he was attending school at Denton that Sgt. Little and Miss Eloise Hunt of Brackettville, were married. They married on July 23, 1940, and she, with their son, Warren Paul, Jr., have made their home in Brackettville with her parents since Sgt. Little entered the service.

Warren Paul, Jr., who is now nine months old, was only twelve days old when his father was home on his last furlough before sailing for overseas.

His wife, who received the message telling of Sgt. Little's death at her home in Brackettville, explained to his parents here that no details were given except that he had died in an Army Hospital on July 27, as the results of wounds received on July 26.

Other than his wife and son, Sgt. Little is survived by his parents, Mr. and Mrs. Roy Little; a sister, Mrs. Vernon Love, Fort Worth; and two brothers, Pvt. James Harold Little of Fort Benning, Ga., and Ray Little, Comanche.

After the African campaign, the De Leon soldier fought with American troops against the Germans in Sicily, and later in Italy.

Garrett-Russell Speeches Draw Attention Here

In the olden days political debates were quite common at public gatherings and were the highlights of such programs. These old time debates are almost a thing of the past, but those who were at the Old Settlers Reunion had the privilege of hearing the next thing to it Friday when Congressman Sam M. Russell and former Congressman Clyde L. Garrett each spoke for more than an hour.

A large part of each speech was criticism of the other's record in Congress but neither said one word against the other personally. Five points from each candidate's platform as brought out follows:

Garrett—

1. Favors winning the war and bringing our boys back home as soon as possible.
2. After the war favors keeping a strong Army and Navy to keep the war won.
3. While in Congress he voted for a bill which if it had passed would have provided from \$50 to \$60 a month pension for the old people.
4. Favors passing such laws as will insure our fighting men a secure and happy place in civil life after the war is over.
5. Favors selling the surplus war material direct to the people of each Congressional district instead of letting it get into the hands of Northern speculators.

Russell—

1. Favors winning the war and winning the peace.
2. Favors passing such laws as will preserve our democratic way of life.
3. Favors passing such laws as will help preserve our financial structure.
4. Favors adequate pensions for the old people.
5. While in Congress helped pass a law that brought the peanut farmers five dollars more per ton for their peanuts.

Conditions Reversed

The speeches made at the reunion by the Congressional candidates may not be recorded in history and become as famous as the Lincoln-Douglas debate of the middle of the last century, but they will long be remembered by those who heard them.

Garrett, a former County Judge as Eastland, was unseated in Congress four years ago by Russell after serving two terms. Russell, a former district judge at Stephenville, now finds the conditions reversed as he is a candidate for a third term with Garrett trying to unseat him.

Dr. Blackwood Opens Clinic

Dr. E. E. Blackwood, physician and surgeon, has moved his offices from the Comanche National Bank Building where he has been since moving to Comanche several months ago, and has now established the Blackwood Clinic, at 508 West Central Avenue.

The Blackwood Clinic now has six beds; and Dr. Blackwood explains that he is getting in new equipment as fast as possible.

Blood Quota Is Increased

The Red Cross' second call for Comanche blood will be made when the Mobile Blood Unit arrives September 11th.

Instead of staying four days it will stay five days this time. Our first quota was 200 donors per day. This time our quota is 250 donors per day.

This obviously means that many more volunteers must respond if this increased quota is reached. Our records show that the first call had many more rural donors on a percentage than city donors. Why not reverse that record this time and thus demonstrate that people living within the city limits of Comanche are just as patriotic and anxious to save lives as rural people are?

You can sign up any time at Edmondson's Shoe Shop. "Obey that impulse" and do it today.

—C. C. Klingman.

SURGICAL DRESSING WORKERS NEEDED NOW!

Surgical dressing workers are needed now at the Comanche County Red Cross Room. "We are just about to finish another large quota of bandages that are badly needed by our fighting men; and we need more Comanche County ladies to come in and help get out this work on time," says Mrs. A. F. Cox, local Surgical Dressing Center Chairman.

The Chief as usual will post the returns of the election on the election board in front of the office. Since the ballot is unusually short, complete returns are expected to come in early, many of them as soon as the polls are closed.

Every precinct chairman is required by law to make a report to the County Chairman as soon after the polls close as possible. These can be brought in person to The Chief where Chairman Lane will maintain his headquarters on election night or may be telephoned to him at The Chief, Phone No. 2. Mr. Lane explains that it is desirable that every box report Saturday night as quickly as possible as some close races are expected and the absence of even a small box might keep the outcome of some race in doubt.

"Most homes are run on three shifts now," says The Brady Standard—"Father is on the night shift, mother is on the day shift; and the children shift for themselves."

Young farmers between the ages of 18 and 25 may be called into the armed forces in increasing numbers after the fall harvest, says Draft Director, Major General Lewis Hershey.

Congressional candidates Clyde Garrett and Sam Russell who spoke at the Old Settlers Reunion were agreed upon one thing—Each agreed that the other made no record during his 4 years in Congress.

At least a half dozen people call at The Chief on the average every day hunting rent houses or apartments. Since these for the past several months have received the same answer "None available," we wonder just how many would be seeking them if the news got nosed around in Brownwood and other points that rent houses and apartments could be found in Comanche.

Bible Thought: "Wherefore I perceive that there is nothing better than a man should rejoice in his own works; for that is his portion: for who shall bring him to see what shall be after him?"—Ecc. 3:22.

A live wire is never down long. From the start of the present war up to July 31 the U. S. Army casualties totaled 244,775 and

those of the Navy 54,699, making a total of 299,474.

Army casualties were subdivided as follows: 45,491 killed; 113,977 wounded, of whom 57,956 have recovered and returned to duty; 42,102 missing, and 43,205 prisoners.

The Navy casualties included 22,665 dead; 17,819 wounded, 9,746 missing and 4,469 prisoners.

Arthur Thomas, a cousin of the late Sidney Thomas, former well known editor of The Comanche Chief, was among the out-of-State men who were in Comanche last week and attended the Old Settlers Reunion.

Thomas who has lived in California for the past 30 years says that a Comanche County reunion is quite different from such reunions held in California.

"There isn't a thing sporting or decent about the type of much of the fighting that the infantry has to do in France," says an airplane pilot who lost his ship and spent 48 hours fighting with the infantry.

He writes, "While with the infantry, I got separated from the rest and got pinned down by a sniper. Every time I moved in that ditch, the German sniper would shoot at me.

"I was scared nearly to death but finally located the dirty Hun who was shooting at me. After while I killed him.

"Realizing that I was lost and in danger, I got out of the ditch and started hunting for the men from whom I had been separated.

"I finally located a glider and found the pilot there alone. He and I hid out all night in a thicket of thorns. He was the only survivor from his glider—all the rest dead or dying.

"We saw some pretty rotten tricks the next day when we rejoined the fighting. One of our medics was dressing the leg of a wounded German sniper whom I had just brought down.

"I was nearby keeping an eye for any more snipers, when suddenly I heard a noise, and look-around, I saw the medic falling over backward—the German had knifed him. The Boche tried to run, but I mowed him down with my tommygun.

"Snipers were our biggest headache. An area would be cleared out and later a few of them, clad in camouflaged suits would infiltrate back.

"They would tie themselves in some tree and wait until some unarmed medic would come along and then blast him.

"Some of our paratroopers were killed in the air, others were bayoneted while they still hung in their harness.

"This was even worse than what I had seen before I got separated from the Air Corps units where some of my pals were killed at the controls as they were coming in to land. Others were killed in crashes as they landed as the fields were very small.

"One of my pals, Johnny Gorman, is rather famous. He landed in a swamp in Normandy, left his co-pilot in charge of the unloading and headed for the command post with an airborne infantry lieutenant.

"A sniper killed the lieutenant and Johnny, laying low, hid in a ditch for 7 hours.

"The Jerries were right across the road from him. They moved nearer. He killed one of them and they then heaved 2 grenades near him, disabling his arm and taking him prisoner.

"Later Johnny talked the Jer-

ries into surrendering back to him and be brought the whole bunch into our camp.

"I have written you these things, not to make it seem that I have gone through a lot, but rather to point out to you, how much better is the lot of those in the air corps as compared to those in the infantry.

"What I went through for a while, is what the G.I. infantry without wings, or bars, or pretty uniforms, go through every day and have been going through everywhere we have fought—at Eataan, Corregidor, Africa, Guadalcanal, Sicily, Italy, and now in France.

"I am an AAF boy, but I think we owe the infantry a debt that we never can repay—all branches really act on his support—he is the important guy they should write about.

The newspapers seem to play up the airborne invasion as somewhat of a blow to the Jerries. It was, but don't think that they did not put up a stiff fight of resistance.

"If war was Hell in the days

of the Civil War as Sherman marched through Georgia, it is Double Hell to those American G.I. men who are doing the hedge fighting in France."

SMITH COUNTY BAR ASSOCIATION

Vote For Simpson For Supreme Court of Texas

In a letter sent out on August 7th from his State headquarters at Austin to the lawyers generally over the State, Judge Critz made the statement that, "the Political Action Committee of the CIO has endorsed my opponent 100% and has decreed that I be defeated". When asked about this matter, Mrs. Gordon Simpson, wife of Col. Simpson who a candidate for the Supreme Court of Texas in the run-off primary against Judge Critz and who at this time is serving overseas under General Mark Clark in Italy, said—

"There is not one word of truth in Judge Critz's statement that the Political Action Committee of the CIO has endorsed Gordon's candidacy for the Supreme Court and Judge Critz made the statement solely to bolster up his tottering candidacy. Judge Critz knows that not a single official of the CIO has said a single word about any of the candidates for the Supreme Court of Texas, and therefore the statement is without foundation in fact and is unworthy of one running for the highest office within the gift of our people.

"Judge Critz's statement sounds more like a Japanese sneak attack and a stab in the back of Gordon Simpson who for 18 months has been separated from us while serving in the military forces of our country under General Dwight Eisenhower and General Mark Clark in Italy.

"I appeal to the mothers and fathers and wives and sisters who have loved ones in the service to go to the polls on August 26th and by your votes resent this unwarranted attack upon Gordon Simpson who is not here to defend himself."

W. E. GEORGE OF GOODNIGHT ON VISIT TO COMANCHE

W. E. George of Goodnight was in Comanche this week visiting A. E. Keeler and family and other relatives and friends of this section. Mr. George who was reared in Brown County has lived at Goodnight for 25 years. He reports a bumper wheat crop in that section.

Goodnight, now only a small village, is one of the historic places of the Panhandle and was headquarters of the famous Goodnight Ranch for years operated by the late Col. Goodnight. The colonel used to keep a large herd of buffaloes and frequently gave buffalo barbecues for well known citizens, including President Theodore Roosevelt. Last year the remainder of the herd was killed with the exception of a few that escaped and are now running wild in that section, Mr. George stated.

CARD OF THANKS

We want to extend our sincere thanks to each everyone for their kindness shown us at the death of our husband, son, and brother, Sgt. Warren Paul Little. Your many expressions of sympathy have been a great comfort and your thoughtfulness will always be remembered.—Mrs. Paul Little and son, Mr. and Mrs. Roy Little and family.

CARD OF THANKS

I want to thank all of my friends and neighbors for their many acts of kindness extended to me at the time of the loss of my house and household goods by fire, recently. Such thoughtfulness will always be remembered.—Elbert Scott and family, Sidney, Rt. 1. (4-5p)

Jack Allen of Fort Worth visited homefolks, Mr. and Mrs. John Allen, this week.

WHERE "BLOCK BUSTERS" ARE BORN

Fractionating towers for producing Toluene at a Sinclair Refinery

TOLUENE puts the knock-out punch in TNT, and it is TNT that gives bombs, "block busters", sea and land mines their destructive power.

Sinclair makes great quantities of Toluene from petroleum in these newly completed fractionating towers at its refinery at Marcus Hook, Penna.

To supply our boys who are doing the fighting, Sinclair makes not only Toluene, but also components for syn-

thetic rubber, 100 octane aviation gasoline and a long list of fuels and specialized lubricants. Altogether, 10 modern Sinclair refineries are turning out products for war-front and home-front use.

SINCLAIR DEALERS do their part by keeping war workers' cars, delivery trucks and other vitally needed vehicles on the job. Let a Sinclair Dealer care for your car, too.

IMPORTANT!

Because paper mills are no longer able to handle loose waste paper, we have been advised that all paper must be either bundled or baled. Tie bundles securely with strong twine or cord. Use hay presses to bale loose paper if a paper press is not available. Please help us in this matter. Paper mills are so overworked and understaffed that they cannot handle loose paper during this paper crisis. Papers must be tied separately from magazines. We thank you.

Kidneys Must Work Well

For You To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

SCRAP PAPER Urgently Needed Now

NATIONAL SCRAP PAPER DRIVE—
AUGUST 20 TO SEPT. 20.

OUR INDIVIDUAL QUOTA ...
20 POUNDS FOR EVERY CITIZEN!

Scrap paper is now the most vitally needed of salvage material; according to reports from STATE SALVAGE MEN, who were in Comanche this week.

There is no let-up in sight in the critical need for PAPER. Practically everything shipped to our fighting men throughout the world is shipped in paper.

ALL SCHOOLS AND CHURCHES IN COMANCHE COUNTY ARE ASKED TO COOPERATE IN GATHERING THE PAPER FROM THEIR COMMUNITIES.

PAPER SHOULD BE TIED SECURELY OR PLACED IN CARDBOARD BOXES.

IN COMANCHE

We have secured two warehouses in Comanche that are suitable for storing the paper. If you care to donate the paper to the Comanche Boy Scouts, please tie up your bundles securely, and bring it to the sidewalk just south of HIGGINBOTHAM'S. It will be gathered and placed in storage each night.

City and County trucks have been made available to the gathering of this paper for one day during this campaign; and a house-to-house drive will be made by the Scouts, on a date to be announced later.

YOUR COOPERATION IN THIS IMPORTANT
WAR-TIME CAMPAIGN WILL BE APPRECIATED!

Goofy, am I?

Go ahead—that's your privilege—thinking I'm just plain hipped on everlastingly keeping this engine's insides OIL-PLATED with Conoco Nth oil. Maybe there is and maybe there isn't sixty other ways that would have kept engine acids from raising Ned with this pre-Pearl Harbor limousine. But one thing I know is this: it's still running swell on nothing but Conoco Nth motor oil. You needn't be a scientist to know that acids from every explosion are forever trying to spoil an engine. Looks like the proper idea is to try blockading those acids by getting your engine OIL-PLATED. I learned there's a modern synthetic in Conoco Nth oil that reminds you of magnetism, because it makes inside surfaces attract a shield of OIL-PLATING. Acids can't so easily tear right into this. Then your OIL-PLATED engine has an extra chance to last you. When new cars arrive, hurrah! But a real advanced improvement right now is to switch to Conoco Nth motor oil, see.

A Ton of PRECAUTION

The security that skill and accuracy of compounding insure, weigh most heavily in our prescription work. Our fine ingredients can be weighed on the scales but the care with which we compound every prescription shows its weight in the dependability of our medicines. We take every professional precaution to be certain that your medicine will conform exactly to the doctor's instructions—measure for measure—word for word—and this precaution is worth "a ton in cure".
